Anna, Illinois, July 9th, 1921.

To the Hon. Mayor and Commissioners
of the City of Anna.

Pursuant to a written request received from R. L. Shannon, Commissioner of Finance, we have made a complete audit of all City records, involving finances from the period beginning May 1st, 1917, and terminating May 2nd, 1921.

We have carefully checked all warrants drawn against the City Treasury, and have checked the cash book of the City Treasurer against the Appropriation Record; also checking the books of the Special Collector and those of Stinson Memorial Library Treasurer, against the City Treasurer's Cash Book.

Many bookkeeping errors have been found and the limitations of Appropriations as made, have been grossly disregarded as the following detailed report will reveal:

**Proposal for Water Supply.**

Honorable Mayor and Commissioners,

Gentlemen—We will prepare a report outlining the general plan of developing a well water supply, giving descriptions of pumping machinery and recommending types and capacities; stating approximate size and description of reservoir and pump station, comparison of alternative plans, if advisable; and an estimate of cost, all in sufficient detail to serve as a basis for an election on a bond issue.

For this report we are to receive a fee of one per cent of the estimated cost of the work as outlined in the report, due upon submission of the report.

It is agreed that in case the improvement is carried forward and we are retained to prepare plans, specifications, etc., for the construction of wells, reservoir, pump station, machinery, etc., the City shall receive credit for the amount paid for the above report against any fees that may later be due.

(Signed) TAYLOR & WOLTMAN,
By J. J. WOLTMAN.

And during the construction of the work we will furnish continual resident supervision for the purpose of setting stakes, inspecting materials and construction, making monthly and final estimates and to see that the plans and specifications are complied with. We will furnish three sets of all plans, specifications, etc., free of charge and additional sets at the actual cost of printing. For the above service we are to receive six per cent of the total cost of all work based on the prices bid for the work. For our work up to and including the letting of the contract we are to receive 3½ per cent of the cost of the work up to $30,000.00 and 3 per cent of the cost of all work over $30,000.00, and the remainder of the fee shall be due in approximately monthly installments in proportion to the amount of work performed by the contractor. The following letter and report from T. H. Hess was read in open council:

Anna, Illinois, May 17th, 1922.

Hon. J. K. Walton, Mayor, and Commissioners,
City of Anna, Illinois.

Gentlemen:

As per instructions from R. L. Shannon, Commissioner of Accounts and Finances, I have audited all the City records and accounts of Special Collector for the term May 1st, 1921, to May 1st, 1922, and herewith submit my report.

Owing to the fact that a very poor system of bookkeeping was instituted by the City Marshal, Sam Kohler, and Ed Ward, Collector in the Water Department, it was a very dif-

ficult task to make a check of the accounts. There was no duplicate receipts kept in either department, therefore I could not check their receipts when there was a difference in their records and the amount paid the City Treasurer. I would recommend that a more complete system of bookkeeping be adopted for these two departments.

You will note by the attached report that the only discrepancies are under the heading of Water District Number One, where Mr. Watson, Special Collector, has paid the City Treasurer 1 cent more than collected, and under the heading of Water Works, where Mr. Ed Ward has paid the City Treasurer 30 cents more than collected in the month of November, 1921.

Respectfully submitted.

Yours very truly,
T. H. HESS.
